

PRE-EMPLOYMENT SKILLS

INSPIRED EDUCATIONAL SOLUTIONS

 **Aspire**
learning resources

PRE-EMPLOYMENT SKILLS

Aspire's range of non-competency based learning resources have been specifically designed for learners with language, literacy and numeracy needs and to support the development of employability skills. We've developed three series, each covering a different set of skills and written in a clear and easy-to-understand style.

READY FOR WORK

The Ready for work series contains 20 booklets, each addressing a different life skill. They are suitable for a wide range of learners who are preparing themselves for work experience, learners who have been out of the workforce for some time and new immigrants.

WORKING WITH NUMBERS

Working with numbers is a numeracy based range of resources that helps learners develop basic math skills.

There are 10 booklets in the series, each addresses a different numeracy topic and uses a combination of methods to help learners develop their math skills.

PERSONAL FINANCE SKILLS

Personal finance skills contains 3 resources developed to help learners understand and learn basic personal finance concepts

Each resource in the pre-employment range has:

- a colourful design
- lots of photographs
- space to write answers
- plus many more features!

If you are interested in competency-based resources for LLN learners, Aspire has a range of **CERTIFICATE I** and **II** resources from the **FSK FOUNDATION SKILLS TRAINING PACKAGE**.

For more information please visit our website:
